### A. New Notices/Announcements

- As an agency charged with the wise management of the most important natural resources, water, we must examine from time to time whether we ourselves are making the best use of our precious natural resources. You may be surprised to learn that we use approximately 6 reams of paper (3,000 sheets!) every month to send the bulletin to our mailing list. With the internet, we believe that we can provide the same information faster, less expensively and save TREES at the same time.

Therefore, in an effort to reduce the cost of paper, copying, postage and trees, and provide quicker and more timely notices, effective July 1, 2000 the Commission's bulletin will be available only on our website at <http://www.state.hi.us/dlnr/cwrm/bulletin.htm>. We will begin notifying those who responded to be on our email list when the new monthly bulletins are ready to download from our website. For those who did not respond to our email request or have since obtained an email address, we will continue to send you monthly bulletins until you notify us otherwise. Please help us in our effort to reduce costs, provide more timely service, and save trees. Thank you.

- On May 15, 2000, Hearing Officer Peter S. Adler issued the Proposed Findings of Fact, Conclusions of Law, and Decision and Order for the Kukui (Molokai), Inc. Contested Case Hearing (CCH-MO97-1).

### D. Petitions for the Designation of Water Management Areas

- **Ahupua'a of Punalu'u as a Surface Water Management Area** - On January 20, 1994, the Punalu'u Community Association (PCA) filed a petition "in order to protect surface water including stream flow, to guarantee the statutory rights of kuleana land owners as well as the riparian and appurtenant rights of others and also to preserve and protect the agricultural base and natural habitats which depend on such surface water." Moreover, PCA alleges ongoing "serious disputes". On March 16, 1994, the Commission approved continuing the designation process to investigate and determine the need for designation.
  - **Ahupua'a of Laie as a Surface Water Management Area** - On May 13, 1996, Dawn Wasson, et. al filed a petition citing diminishing surface water supply for future needs and serious disputes occurring within the area. Decision-making for continuing the process is deferred pending results of Laie CCH-OA96-2, which has been completed on December 7, 1998.
  - **Island of Molokai** – On March 28, 1990, 39 individuals filed a petition to designate Molokai as both Ground and Surface Water Management Areas. On May 13, 1992 the Commission designated Molokai and its 16 aquifer systems as groundwater management areas. Surface water designation has been deferred pending further study.

Closing arguments were heard on December 31, 1998. The final decision will be rendered at another date.
